Matthews Pacific Tiger Fund

Fund Objective

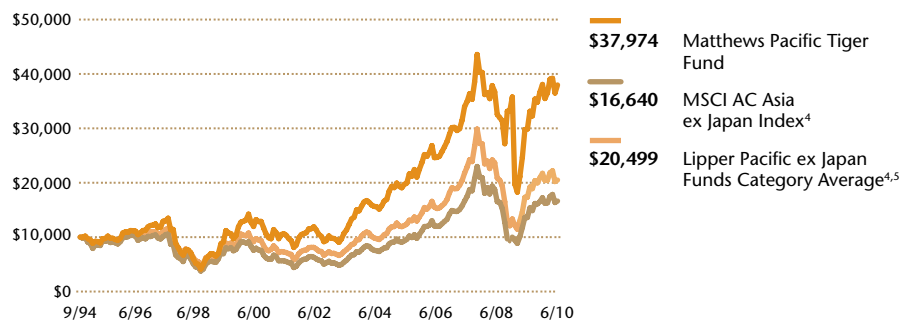

Under normal market conditions, the Matthews Pacific Tiger Fund seeks to achieve its investment objective by investing at least 80% of its total net assets, which include borrowings for investment purposes, in the common and preferred stocks of companies located in Asia, excluding Japan, which includes China, Hong Kong, India, Indonesia, Malaysia, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Taiwan, Thailand and Vietnam ("the Pacific Tiger Countries").

Investing in international markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. In addition, single-country and sector funds may be subject to a higher degree of market risk than diversified funds because of concentration in a specific industry, sector or geographic region.
