## INVESTMENT APPROACH

Matthews International Capital Management, LLC, the advisor to Matthews Asia Funds, believes in the long-term growth of Asia, one of the world's fastest-growing regions. Since 1991, we have focused our efforts and expertise exclusively in these countries, investing through a variety of market environments. Matthews is the largest dedicated Asia-only investment specialist in the United States. With \$11.5 billion in assets under management as of December 31, 2009, Matthews employs a bottom-up, fundamental investment philosophy with a focus on long-term investment performance.

## Fund Objective

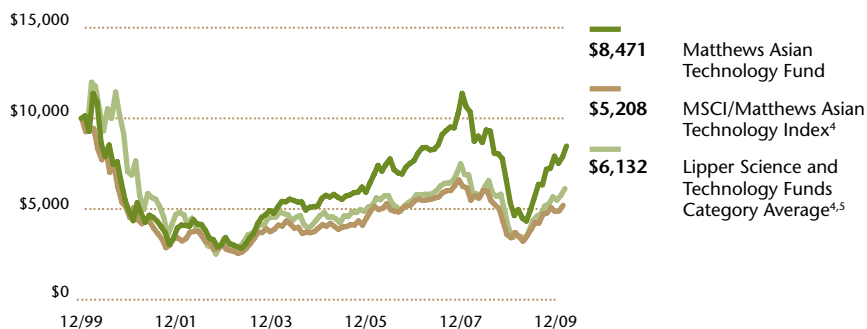

Under normal market conditions, the Matthews Asian Technology Fund seeks to achieve its investment objective by investing at least 80% of its total net assets, which include borrowings for investment purposes, in the common and preferred stocks of companies located in Asia that derive greater than 50% of their revenues from the sale of products or services in technology-related industries and services.

*Investing in international markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. In addition, single-country and sector funds may be subject to a higher degree of market risk than diversified funds because of concentration in a specific industry, sector or geographic region.*

The performance data and graph do not reflect the deduction of taxes that a shareholder would pay on dividends, capital gain distributions or redemption of fund shares. Values are in US\$.

- 1 The lesser of fiscal year 2008 long-term purchase costs or sales proceeds divided by the average monthly market value of long-term securities.
- 2 The Matthews Asia Funds do not charge 12b-1 fees.
- 3 The MSCI/Matthews Asian Technology Index is a free float-adjusted market capitalization-weighted index of Asian equities tracking a broad range of technology stocks including semiconductor equipment and products, communications equipment, computers and peripherals, electronic equipment and instruments, office electronics, software, IT consulting and services, Internet software and services, diversified telecommunications services, and wireless telecommunications services. - 4 Calculated from 12/31/99.
- 5 The Lipper Category Average does not reflect sales charges and is based on total return, including reinvestment of dividends and capital gains for the stated periods.

*Performance assumes reinvestment of all dividends and/or distributions before taxes. All performance quoted represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate with market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the return figures quoted. Returns would have been lower if certain of the Fund's fees and expenses had not been waived.
