Fund Objective

Under normal market conditions, the Matthews Asia Small Companies Fund seeks to achieve its investment objective by investing at least 80% of its total net assets, which include borrowings for investment purposes, in the common and preferred stocks of small companies located in Asia, excluding Japan, which includes China, Hong Kong, India, Indonesia, Malaysia, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Taiwan, Thailand and Vietnam.

Investing in small companies is more risky and volatile than investing in large companies. Investing in international markets may involve additional risks, such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation.
